

Aadhaar Tutorial

Identity • Online & Offline • Estimated time: 15 min

Overview

Aadhaar is a 12-digit identity number issued by UIDAI. Most updates — address, email, mobile linking and e-Aadhaar download — can be completed on the myAadhaar portal. Biometric changes still need a visit to an enrolment centre.

Eligibility

- Any resident of India, including infants
- Registered mobile number required for OTP-based online updates
- Original documents needed for biometric or demographic changes at a centre

Required Documents

- Aadhaar number or Enrolment ID — 12-digit number / 28-digit EID. Needed to log in to myAadhaar.
- Registered mobile number — SMS OTP. OTP is the only accepted login method online.
- Address proof — PDF / JPG, under 2 MB. Electricity bill, passbook, rent agreement or passport.
- Passport-size photo — JPG, 3.5 × 4.5 cm. Only required for fresh enrolment at a centre.

Charges & Timeline

Government fee: ₹ 0

Service charge: ₹ 0 online • ₹ 0 at CSC

Processing time: 7–30 days for updates

Payment methods: UPI, Net Banking, Debit / Credit Card, Cash at centre

Step-by-Step Guide

Step 1: Open the myAadhaar portal

Go to myaadhaar.uidai.gov.in and select Login. Enter your 12-digit Aadhaar number and the captcha shown on screen.

Tip: Bookmark the official portal — search results often show look-alike sites.

Step 2: Verify with OTP

A six-digit OTP is sent to the mobile number linked with your Aadhaar. Enter it to sign in to your dashboard.

Warning: If your mobile number is not linked, OTP login will not work — visit a centre instead.

Step 3: Choose the update type

Select Update Aadhaar and choose the field you want to change: address, name, date of birth, gender or language.

Note: Name and date of birth can only be updated a limited number of times in a lifetime.

Step 4: Upload supporting documents

Upload a clear scan of your proof document. Files must be under 2 MB in JPG, PNG or PDF format.

Tip: Photograph documents in daylight on a flat surface — blurred corners are the top rejection reason.

Step 5: Pay the update fee

Pay ₹150 for a demographic update using UPI, card or net banking. A receipt is generated instantly.

Step 6: Track your request

Use the Update Request Number (URN) on the Check Status page. Once approved, download the fresh e-Aadhaar PDF.

Note: The e-Aadhaar PDF password is the first 4 letters of your name in capitals plus your birth year.

Common Mistakes

- Uploading a document where the address does not exactly match what you typed
- Using an unregistered mobile number and expecting an OTP
- Losing the URN receipt, which makes status tracking difficult

Frequently Asked Questions

How long does an Aadhaar address update take?

Most address updates are approved within 7 to 30 days. You can track progress with your URN.

Can I update my biometrics online?

No. Fingerprints, iris and photo updates require a visit to an Aadhaar enrolment centre.

Is the e-Aadhaar PDF valid as ID proof?

Yes, the downloaded e-Aadhaar carries a digital signature and is accepted everywhere.

Official Portal
